

Industries, Inc.

Designer and Manufacturer of **AccessAbility**. Automatic Door Activation Solutions

Bollard Post- Round (BPR Series) by Wikk Industries, Inc.

There are entrances where mounting a wall switch and access controls directly to the wall adjacent to the door is impractical in terms of accessibility guidelines. In other cases a high degree of visibility of these devices is desirable. Utilizing a bollard is a practical solution.

Features:

- 6" round with 5/32" wall for Aluminum and 1/8" wall for Stainless Steel
- Black HDPE mortised removable cap with a transmitter mounting strap
- Standard single gang prep located at 36" From Finished Floor (FFF)
- Complete mounting instructions

Mounting Options:

- Surface mount-42" From Finished Floor (FFF) with cylindrical aluminum bracket with access hole for wiring conduit, (4) 1/2"x 2-3/4" length masonry anchors, (4) 1/4-20 stainless steel flat head machine screws.
- In-Ground mount- 54" with 12" recess In-Ground

Material:

- Anodized Aluminum 6063-T5- Clear (628), Dark Bronze (710), Black (711), and Mill Aluminum for painting or powder coating.
- 304 Stainless Steel Tube, Satin -US32D(630)
- 304 Stainless Steel Tube, Mirror-US32 (629)

Options:

- Welded Stainless Steel Cap
- Welded Angle tops
- Welded Domed Cap
- Welded recessed insert for flat devices
- Custom heights
- Custom preps
- Multiple preps for additional devices
